Abstract (en)
[origin: DE4233357A1] In a process and with a device for magazining cans, filled cans removed from the magazine are replaced by empty cans. To load on or remove the cans, the magazine is moved. An empty space for a can, an empty can or a full can is advanced to a can-gripper. The device as per the invention is a carriage (10) with a magazine. Empty and/or full cans (1, 2) are arranged on the carriage in such a way that the empty cans (1) are placed at one end of the carriage (10). The full cans are placed at the other end of the carriage (10).
