Abstract (en)

Offset printing machine comprising a plate cylinder (2) for receiving the block (5), an inking apparatus (6) mounted at the plate cylinder, a blanket cylinder (3) and an impression cylinder (4) serving to press the material to be printed (9) against the blanket cylinder. The blanket cylinder (3) is supported by bearings (11) mounted fixedly in the frame (1) of the printing machine and the plate cylinder (2) and the impression cylinder (4) are adjustable in relation to the blanket cylinder (3), such as through eccentric bushes mounted in the machine frame (1). <IMAGE>
