Abstract (en)

[origin: CA2139582A1] An integrally formed flexible razor head having a plurality of blade platforms separated by a corrugation, at least one blade having a cutting edge, and a plurality of blade retainers which are integrally formed with the blade platforms and extend to positions above and adjacent to the top surface of the blade. While the blade retainers are integrally formed with the other pieces of the flexible razor head, each blade retainer is discrete with respect to other blade retainers.
