Abstract (en)
[origin: WO9405514A1] A compass (1) with safety pivot is disclosed for drawing arcs or complete circles on a surface without perforating it and in an absolutely safe manner for young users. The safety pivot of said compass has a rounded end at the end of a pin (8) housed in the body (9). Said rounded end is partially or fully covered by a non-slip finish (7') designed to be in contact with said drawing surface to define the centre of the arc or circle to be drawn. Application to drawing instruments rotating about a point.
