Abstract (en)
[origin: EP0661501A2] The invention relates to a support or upright holder (10), in particular for radiators, preferably for flat radiators (50), which has a standing base (12), a vertical standing leg (16) and at least one bracket-like device in order thereby to support a radiator, a holding device being arranged on the standing leg (16), according to the invention, at the lower portion of the standing leg (16) in order to hold the radiator such that it can be fixed in a predeterminable position. <IMAGE>
