Abstract (en)

[origin: EP0663490A1] A basic frame is fixable to a base and the attachment body also has a hood. The basic frame (3,4) is plially elastic in its support on the base (1) and on the inside of the basic frame or a part of it at least one securing tab (10) engages, which locates on the inside of the base with which it is releasably connected. The securing tab is riveted to the inside of the base. Between the basic frame and the base an all-round sealing profile (20) extends.
