Abstract (en)

The present invention relates to inhibiting dye transfer compositions comprising polysulfoxide polymers which contain units having the following structure formula : <CHEM> wherein P is a polymerisable unit, whereto the S-O group can be attached to or wherein the S-O group forms part of the polymerisable unit or a combination of both. A is <CHEM> -O-, -S-, <CHEM> x is O or 1 ; R are aliphatic, ethoxylated aliphatics, aromatic, heterocyclic or alicyclic groups or any combination thereof whereto the sulfur of the S-O group can be attached or wherein the sulfur of the S-O group form part of these groups.
