Abstract (en)
The applicator supplying the cleaning fluid to the floor surface has an aerosol atomizer to produce a finely atomized spray whose drop sizes are preferably between 15 and 150 micrometers. The cleaning fluid can contain surfactants. The applicator which is fixed on the machine housing is preferably moved at a speed of between 0.1 and 0.2 metres per second over the floor to apply 0.05 to 0.12 litres per square metre. The applicator can have a piezo atomizer.

Abstract (de)
Bei einem Bodenpflegegerät mit einer Auftragsvorrichtung zum Aufbringen eines Reinigungsfluids auf eine zu reinigende Fußbodenfläche ist zur Vermeidung einer unwirtschaftlich großen Reinigungsfluidmenge ein Aerosolzerstäuber für das Aufbringen des Reinigungsfluids in feinstzerstäubter Tröpfchenform vorgesehen.
