Abstract (en)
[origin: EP0666118A1] The unit has a high pressure pump for the cleaning fluid and a chemical supply device drawing chemicals out from a supply container and mixing same with the cleaning fluid. The supply container (34) is ring-shaped, preferably mirror symmetrical relative to a plane of symmetry. The supply container encloses a part (26) of the unit. An inner wall (38) of the container (34) faces this part and is contoured to match the two opposite side walls of this part. The unit can have an electric motor (10) controllable by an electric switching unit (26) which is enclosed by the supply container.
