Abstract (en)

[origin: EP0666354A2] An appts. for crimping textile strips has steam appts. a covered hot crimping plate tilted w.r.t. a heat build up tunnel and a cooling zone for the textile strip. Here, there is at least one steam box (5a, 5b) extending over the breadth of and below the crimping plate (4) and where its steam outlet is set into the slide plate in such a way that the downwards progress of the textile strip (14) is unimpeded.
