Abstract (en)

[origin: EP0667212A1] The chest (1) on wheels (15) has two vertical partitions (2) and one horizontal partition (3) which divide it into two narrow vertical compartments (4) and two horizontal compartments (5,6). It has an opening (7) which is closed by a door (8) which can be locked. One vertical compartment has a longitudinal slot (10) in its upper wall through which the ends of narrow tubular parts can pass. The slot can have elastic lips on its edges which close it.
