Abstract (en)
[origin: WO9404016A2] A floor covering system comprises: an underlay for laying on a floor for covering, and an upper carpet for laying on that underlay. The floor covering system according to the invention has the feature that the underlay is provided in advance on its lower surface with an anti-slip layer; and after laying, the underlay is provided on its upper surface with an adhesive layer for fixedly adhering an upper carpet to the underlay.
