Abstract (en)

Household washing-machine, particularly a dishwashing machine, comprising a front door (1) and a lock/release system (3-6,10-17) for said door (1) in respect to the machine cabinet (8) able to warrant the closure of the door (1) and allow its opening, wherein a decor-panel (7) with gripping means (20) able to exert a traction on the panel (7) is applied to said door (1), characterised in that the panel (7) is fastened in its lower side to the door (1) in such a way that following a traction exerted on the gripping means (20) the panel (7) is first retracted from the door (1) in the upper section of the latter; and in that the panel (7) has coupling means (26,27) above its fastening point (21) to the door (1), which transfer the traction exerted on the panel (7) to the door (1) upon exceeding a given passage of the panel (7). <IMAGE>
