Abstract (en)  
[origin: EP0669442A1] The bars (1-4), cut-off from medium thick fibreboard (9) coated (10) at least on the visible sides, pref. by a plastics or metal foil. The individual bars, or their groups, have each a different coating. When fitted, the outward faces may have different coatings than the inward ones. Alternatively all bars may have a uniform, peripheral coating, with fittings, seals etc. inserted on the coating, avoiding pressing as far as possible. The bars may be fitted with mitred joints. In a coated chipboard or fibreboard they may be provided with wedge-shaped recesses on the side away from the visible one.
