Abstract (en)
[origin: EP0671340A1] The combination packaging comprises a hollow extruded cartridge with a chamber for the primary substance (14) and a small holder for the secondary substance. A piston is provided which can slide in the cartridge. On the bottom side, the compartment is closed off from the filler compartment (16) by the hollow piston (12) open at the bottom. The small cylindrical receptacle preferably has a thin-walled outer casing (42) and a tear-off foil cover (44). The liquid accessory is contained in the receptacle and is for example a primer (50) with foam or felt applicator (46).
