Abstract (en)

[origin: EP0675332A2] The inside wall (3) of the door (1) features a number of parallel slots (4) with dovetail edges for retention of the hooks (15, 16) on the back of trays (14) holding refrigerated prods. The slots are closed and enlarged at their ends and incorporate grooves (5, 6) along their length, the lower edges (9) of which are interrupted over a length corresp. to that of the hooks for ease of insertion. The hooks are firm enough to prevent the trays from being tipped out. <IMAGE>
