Abstract (en)

[origin: WO9415858A1] A vapour emission device, such as a deodorizer, for a refuse container, e.g. a wheeled bin, comprises a part (21) which hangs down inside the container, and a part or parts which hold the device in place on the upper lip (13) of the container (10). The inside part (21) includes a removable cassette (26) which contains a pad impregnated with a fragrance oil and/or insect repellent and/or insect killer. The inside part (21) may be pivotable or designed to be held flat against the inside surface of the container.
