Abstract (en)

A process for improving the adhesion of thermally sprayed coatings of metals, metal oxides and hard materials, esp. Zn, Al and alloys thereof, comprises coating the sprayed-on layers with an atmos. moisture-hardening, one-component polyurethane (PU) resin.

Abstract (de)

Das Verfahren zur Verbesserung der Haftfestigkeit von thermischen Spritzschichten aus Metallen, Metalloxiden und Hartstoffen, insbesondere aus Zink, Aluminium und deren Legierungen besteht darin, daß die Spritzschichten nach dem Aufspritzen mit einem einkomponentigen, luftfeuchtigkeitshärtenden Polyurethanharz beschichtet werden.
