Abstract (en)

[origin: EP0677719A1] The remote control to detonate the warhead (32) of a projectile (11) has at least one range measurement system (24, 28) to register the projectile and target ranges (L1, L2). A transmitter delivers a detonation command signal (30) on registering a set distance (dL) between the projectile (11) and the target (12). <IMAGE>
