Abstract (en)

[origin: EP0677854A2] An electrical jacket or sleeve arrangement (10) including an insulated copper conductor (1) and a filler wall (14) arranged between the conductor insulation (12) and the outer casing (13), is designed or avoiding the outlay required for laying, securing and connecting of two conductors, and for improving the appearance and tidiness of the arrangement. The filler material (14) also encloses a data line (16) provided with an encapsulation (15) and directly located on the conductor insulation (12). The insulated copper conductor (11) and the data line (16) are wrapped together. <IMAGE>
