Abstract (en)
[origin: EP0678335A2] The booth has a work chamber and a cleaning device for at least a part of the limiting walls, which is movable through the work chamber. The cleaning device has cleaning members locating against at least a part of the limiting walls. The cleaning members (34) are drivable and in operation move in a peripheral direction vertically to the movement direction of the cleaning device over the limiting walls (4-7). The cleaning members are arranged on at least one circulating driven conveyor belt (26,27). <IMAGE>
