Abstract (en)

[origin: WO9513887A1] Tool for driving rivets and self-drilling screws comprising a moveable body (8), terminating in a head (T) for holding the rivet or the self-drilling screw (12) so as to be rotatably driven by the electric motor (2) by means of gears (3 and 4) through the median screw (9) which comprises a pulling device (31). The tool is enclosed in an electric hand tool type housing (1) and includes a self-drilling screw or rivet dispensing cartridge.
