Abstract (en)
[origin: WO9417696A1] Prefab furniture consisting of a number of vertical and horizontal standard components of suitable material for connecting, wherein a vertical part is formed by a shell (31) which has recesses (37) distributed along the periphery for closely-sized receiving a horizontal elongate part (32), this such that a spatial frame is formed, with which it is possible to assemble construction kits for non-professional users which are moreover light in weight and easy to transport.
