Abstract (en)
[origin: WO9418293A1] Solid washing, rinsing and cleaning agents containing: a) mixtures of anionic and non-ionic surfactants in a weight ratio of 9:1 to 1:9, and b) 1 to 50 % by weight, in relation to the non-ionic surfactants, of selected polymer solidifying materials, are resistant to the gradual escape of the non-ionic tensides. Grease permeation through the cartons containing them is reliably prevented.
