Abstract (en)
[origin: US5704159A] PCT No. PCT/CH94/00218 Sec. 371 Date Jul. 19, 1995 Sec. 102(e) Date Jul. 19, 1995 PCT Filed Nov. 9, 1994 PCT Pub. No. WO95/16077 PCT Pub. Date Jun. 15, 1995 The root-space protection comprises a basic component (1) forming the root space and a cover (9) with a trunk aperture. In order to suit the root-space protection to the biological, technical and aesthetic requirements, the proposal is for a structural insert in which the basic component (1) is subdivided transversely to its vertical axis (2) into at least two parts (3, 4), where the upper part has a recess (5) for the cover.
