Abstract (en)

A massage cushion for sitting or lying on comprising two massagers (1, 2) to produce vibration by electricity, two transmitting plates (3, 4) respectively connected firmly with the two massagers for receiving vibration from the massagers to give it to the body of a user a connecting plate (5) being connected between one massager and one transmitting plate by means of a shaft (6) functioning as a pivot to enable one transmitting plate to bend relative to the other transmitting plate so that this massager cushion may be bent as two portions, i.e. a back portion and a seat portion to function as a chair for massaging as well as a bed. <IMAGE>
