Abstract (en)

[origin: EP0685178A1] The auxiliary pieces (1,2) are semi-rigid plates which are each curved around a vertical axis (a). Their lower parts (12,22) are separated relatively to the axes and their upper parts (11,21). Each plate is an inverted image of the other plate. Each plate is held at the front of the collar, between its outer and inner flaps. A stud (14,24) on each plate engages in a hole in the outer flap. The upper part of each plate is at the top of the collar and its lower part reinforces the inner side of the collar. <IMAGE>
