Abstract (en)
[origin: WO9425330A1] A saddle post (10) for a bicycle. The saddle post comprises a tube (12) which can be inserted into a bicycle frame. The tube (12) defines an internal space (22) and further defines an aperture (24) providing communication between the internal space (22) and the region exterior of the saddle post (10). A cable (26) of a lock (27) can be received through the aperture (24) into the internal space (22). The saddle post (10) further includes holding means (30) provided at the aperture (24) to hold the cable (26) in the internal space (22).
