Abstract (en)

[origin: US5667343A] PCT No. PCT/SE94/00245 Sec. 371 Date Nov. 2, 1995 Sec. 102(e) Date Nov. 2, 1995 PCT Filed Mar. 18, 1994 PCT Pub. No. WO94/21411 PCT Pub. Date Sep. 29, 1994A milling cutter tool for chip-breaking machining comprises a rotatable milling cutter body (1) and a plurality of cutting insert-carrying cassettes (4) which are fastened in the cutter body by screws (6,7). The screw holes of the cassette are somewhat elongate in order to enable an axial fine-adjustment of the cutting edges. This fine-adjustment is accomplished by turning an eccentric tap (8), for instance by sticking a hexagonal key through a hole in the cassette, which hole leads to the head of the eccentric tap.
