Abstract (en)  
The chain consists of a back frame (1) with two parallel lengthwise members (2) forming the seat, pivoted to the back frame close to its lower edge. Two arm rests (4) are parallel to one another and to the seat members, and are pivoted to the back frame, while a U-shaped frame (3) forms a leg rest. A fabric panel is attached to the back, seat and leg rest by elastic connectors. The chair stands on folding legs (35,36) connected by a pivot (23) and a sliding stay (39). Each arm rest is equipped with a sliding member (5) which lies parallel to the seat members, and the upper end of each front leg (26) has a cap (7) which can be moved along the sliding member and fixed in position by a lock (8). A second sliding cap (10) is fitted to the end of each stay, and both caps are made from plastics, especially acetate. The lock in the sliding cap is in the form of a cam. <IMAGE>

Abstract (fr)  
Fauteuil de relaxation du type comprenant : un cadre formant dossier (1), deux longerons (2) formant assise, articulés avec le dossier (1); deux accotoirs (4) articulés avec le dossier (1); un cadre (3) en U formant repose-jambes, un piètement formé de deux jambages, respectivement avant (36) et arrière (35), solidaires des longerons (2), lesdits jambages (35,36) étant articulés entre eux autour d'une chape (23), caractérisé : en ce que chaque accotoir (4) présente un axe (5) de coulissement parallèle aux longerons (2); en ce que l'extrémité de chaque jambage avant (36) présente une chape (7) apte à coulisser sur ledit axe (5) de coulissement et un moyen de blocage (8) en position ; en ce que les jambes des jambages sont reliées entre elles par une bielle articulée (39); <IMAGE>
