Abstract (en)
[origin: EP0689886A1] Tube flarer or expander body, to be used with the help of a pushing tool (1), which causes the movement of a slide (4). A part (7) is attached to the end of the slide, with the tube flarer or expander body (9) then being fitted to this part. The interior of the tube flarer or expander body contains a part (15) provided with a conical forward portion (16), which acts on the unit (12) equipped with noses or bits in order to open or expand the ends of pipes or tubes. The tube flarer or expander body unit (9) is independent of the tool. <MATH>
