Abstract (en)

[origin: WO9520212A1] In a carrying and/or holding device for musical percussion instruments, especially with an attachment (3) for an instrument like a tom-tom, which is secured via a vibration damper with at least one upper and one lower support (8 or 12) to the kettle (1) of a bass drum, the vibration properties are improved if the lower support takes the form of a pivot-bearing (12).
