Abstract (en)

[origin: WO9422743A1] The invention relates to a package and a method for packing a pasty substance so as to be readily handled by a large-scale consumer, wherein a rather large amount of pasty substance is stuffed in a continuous flexible tubing (2) having its ends sealed. The invention relates also to a mechanism for unloading the package. The mechanism includes at least one shearing knife (5) for cutting package casings (2) as well as means (6) for deflecting the cut-off casing strips from the traveling path of the product.
