Abstract (en)

[origin: US5655934A] An electrical plug connector, including an upper housing portion 1, a lower housing portion 2 and a plug chamber 4 for a RJ plug. In the upper housing portion 3 contact elements to be wired with connecting wires are disposed. The inner ends of the connecting wires are connected with contact strips 7 projecting into the plug chamber 4 for contacting the RJ plugs. The plug chamber 4 is adapted as a separate housing portion 3 and is latchable with the lower housing portion 2 by connection elements 16, 17, 18, in at least two different positions. The contact strips 7 are bent off each in different directions into the plug chamber 4, depending upon the position of the plug chamber 4.
