Abstract (en)

[origin: EP0694270A1] The fitment has a middle rail (10) which runs in the drawer-rail (6), with the middle-rail's top, flat flange positioned with a small gap between it and the flange of the drawer-rail. Track rollers (13) guiding the drawer-rail along the middle rail are mounted on the outside of the side flanges (11) of the middle rail. The drawer-rail is guided on the rollers by its top flange and on inward-angled guide tracks (8). The rail (16,17) on the main furniture body, the middle rail, and guides (20) forms a single pull-out unit. <IMAGE>
