Abstract (en)

[origin: EP0695575A2] The components are placed in a bag and a free space is maintained. The bag is closed after air has been reduced, and the bag is then pressurised at various points and in different directions. The bag (25) is pref. closed by welding and is placed between two plates (16,17). The plates are pref. profiled and are moved in different directions to produce the system.
