Abstract (en)
[origin: WO9513888A1] The proposed conveyor (loading and unloading) system, in particular for use in facilities for the drying and microwave treatment of casting cores, comprises at least one conveyor track for the goods to be treated or moved and associated receiving devices. In the vicinity of the conveyor track (5), rotatable or pivoting carriers (20) for the conveyed articles or for at least one receiving device (10) are provided. The rotating or pivoting axis (25) of the carriers is at an acute angle to the vertical, and preferably at an angle which is at least approximately zero.
