Abstract (en)

[origin: EP0701091A1] The lamp mounting has a socket holder (2) receiving the insulating lamp socket (3), which has a lamp carrier section (3.1) and a contact carrier section (3.2), receiving a pair of metal contacts, cooperating with the lamp contacts. The socket holder is made of an insulating material and formed in 2 half shells (2.1, 2.2) provided with support and or fixing elements (2.3) for the lamp socket, which are brought together for partially enclosing the contact carrier section of the lamp socket.
