Abstract (en)
Clothes washing machine with an improved control arrangement so as to increase the simplicity and the reliability of the overall circuitry in the machine. The electronic switch (Triac 19) controlling the driving motor (7, 8) of the rotating drum is used to also control the safety door interlock arrangement (2, 3), as well as the position and actuation contacts (11 and 10, resp.) of the inlet water flow distributor. <IMAGE>
