Abstract (en)  
The adapter has a head part (1) with a plug (7) for connection of an audio or programming cable and contact elements (4, 6) which can cooperate with contacts within the hearing aid battery compartment, for connection of the adapter to the hearing aid electronic circuit. The adapter is sized to fit into the battery compartment upon opening of the battery compartment cover (11) and displacement of the hearing aid battery (12), secured to the latter, the contact elements provided in at least one of the sidewalls of the head part.
