Abstract (en)

[origin: EP0703009A1] A composite material consists of a base material (10), a first priming (12) applied on it and a metallic layer (14) applied on the first priming (12). A second priming (16) is applied on the first metallic layer (14) and is succeeded by a second metallic layer (18). A covering layer (20) is located on the second metallic layer (18).
