Abstract (en)

The prodn. of aminated regenerated cellulose fibres (I) comprises making a soln. of cellulose and a protein with a mol. wt. of more than 50000 or a natural prod. contg. such a protein (II) and spinning fibres from this soln. Also claimed are (i) textile fibre material consisting of (I); and (ii) a process for dyeing and printing such textiles with anionic dyes, using a dye soln. contg. no additional electrolyte salts, at a pH of 4-6 for direct and acid dyes and 6-8.5 for reactive dyes.

Abstract (de)

Verfahren zur Herstellung aminierter Celluloseregeneratfasern, dadurch gekennzeichnet, daß man eine Lösung aus Cellulose und einem Protein mit einem Molekulargewicht von größer als 50 000 oder einem Naturprodukt, enthaltend ein solches Protein, herstellt und aus dieser Lösung Fasern spinnt.
