Abstract (en)
[origin: EP0704594A1] Hinge with a first (2) and a second hinge (3) part being connected to each other by hinge means. One of the hinge parts is divided into a top (4) and a bottom hinge (5) part that can be fixed by means of fixing means to a casing part, while both the bottom hinge part and the top hinge part can be hingedly fixed by means of hinge means to the other, second hinge part. The hinge means consist of two pins (10,11) or the like and a tubular part (14), one pin of which is fixed to the top hinge part (4), while the other pin is fixed to the bottom hinge part (5) of the first, divided hinge part (2), and the tubular part (14) is fixed to the second hinge part (3), which is not divided, in which tubular part the ends of the two pin parts of the top and bottom hinge part can be placed. <IMAGE>
