Abstract (en)

[origin: EP0707117A1] A modular block wall includes dry cast, unreinforced modular wall blocks (40,80,116,340,480,550) with anchor type, or frictional type or composite type soil stabilizing elements (42,44,280,300,302,312,324,506) recessed therein and attached thereto by vertical rods (46) which also connect the blocks together. The soil stabilizing elements are positioned in counterbores or slots (62,64,100,554,555) in the blocks and project into the compacted soil behind the courses of modular wall blocks. <IMAGE>
