Abstract (en)

A guide track for gripper straps in looms consists of a plurality of mutually spaced support and guide elements fixed to the loom sley (A) and comprises lower support and guide elements (1i) and upper support and guide elements (1s), shaped as upturned brackets (4) and, respectively, downturned brackets (8) and alternately positioned along the track, said elements being apt to slidably cooperate with longitudinal notches provided on the opposed surfaces of the gripper straps (N). <IMAGE>
