Abstract (en)

[origin: WO9503148A1] A log band saw blade for primary wood processing, consisting of a series of different modules (M1, M2, M3...) or identical modules each including a number of teeth (D) having variable characteristics determined in accordance with all the relevant technical criteria. In each module, the tooth portion located in front of the lowest point has a variable shape (FV) while the tooth portion located therebehind has a constant shape (FC).
