Abstract (en)  
[origin: US5727687A] PCT No. PCT/DE94/00793 Sec. 371 Date Jan. 18, 1996 Sec. 102(e) Date Jan. 18, 1996 PCT Filed Jul. 8, 1994 PCT Pub. No. WO95/03230 PCT Pub. Date Feb. 2, 1995Packaging for storing products in the form of pellets, the packaging including a deep-drawn element having a plurality of straight deep-drawn grooves, each groove having an open top and being dimensioned to hold a plurality of the products in a row, and a cover element covering the deep-drawn element and the open tops of the grooves, the cover element having a plurality of closable removal openings each aligned with a portion of the open top of a respective one of the grooves, each closable removal opening being openable for removal of successive ones of the products held in the respective one of the grooves. The cover element is composed of a cover foil provided with a plurality of flaps, each of the flaps delimiting a respective one of the removal openings, and each of the flaps being surrounded by a respective portion of the cover foil, and an adhesive foil, having a plurality of portions, each of the adhesive foil portions covering, and secured to, a respective one of the flaps and covering the respective portion of the cover foil which surrounds the respective one of the flaps, each of the adhesive foil portions being movable between a closing position for causing the adhesive foil portion and the respective one of the flaps to tightly seal the respective one of the removal openings and an opening position for opening the respective one of the removal openings.
