Abstract (en)
Ironing board, particularly for home use, which comprises an elongated box-like body (11) constituted by a perforated upper metal plate (12) that is covered by one or more layers (13) of a soft air-permeable material, said plate resting on a shell (14) made of thermoformed plastic material, said box-like body (11) having a first tapered end (15) and a second end (16) that supports an iron holder structure (17), said box-like body (11) being supported by ground resting elements (19, 20), suction means being furthermore provided which are adapted to produce a negative pressure inside said box-like body (11), said shell having, in a downward region, one or more seats (29) inside which said ground resting elements retract in the collapsed configuration. <IMAGE>
