Abstract (en)

The bulkhead has sections (6a,6b,6c,6d) which are connected to one another, and which fit positively into each other when the bulkhead is in its closed position across a deck (4). The sections can be moved into and out of a magazine (10), which is arranged on the edge of the deck. The magazine may extend in the longitudinal direction of the deck, and the sections may be able to move horizontally. It is mounted on a guide rail (8) on the floor of the deck, and this may run across the deck and may also extend into the magazine.

Abstract (de)

Es wird ein Schott zum Verschießen eines Schiffsdecks (4), insbesondere eines Fahrdecks von Fähr- oder Ro/Ro-Schiffen, mit mehreren bewegbaren Schottsektionen (6a bis 6d) vorgeschlagen, die gelenkig miteinander verbunden sind, in der geschlossenen Stellung formschlüssig aneinanderstehen und in Richtung ihrer Längserstreckung in ein am Rand des Decks (4) angeordnetes Magazin hinein- und herausbewegbar sind.
