Abstract (en)

[origin: US5727488A] PCT No. PCT/EP95/01927 Sec. 371 Date Jul. 2, 1996 Sec. 102(e) Date Jul. 2, 1996 PCT Filed May 22, 1995 PCT Pub. No. WO95/33879 PCT Pub. Date Dec. 14, 1995The present invention pertains to a device for producing three-dimensional casings, which, for holding blanks that are preferably made of materials having a low bending strength, has a carrier body, on which the blank can be mounted in a detachable manner, wherein the carrier body has at least one holding unit with a holding element, whose contact area can be transferred from a resting position situated within the carrier body into a contact position situated outside the carrier body.
